

MUHAMMAD GHIFARI ZAKI

DATA ANALYST

ghifarizaki.ws@gmail.com +6285746707681 Surakarta, Indonesia <https://github.com/gzxos>

PROFILE

Computer Science graduate with hands-on experience in data analysis, machine learning, and software QA. Proficient in Python and SQL, with exposure to end-to-end ML pipelines from data cleaning to deployment. Passionate about transforming raw data into actionable insights.

TECHNICAL SKILLS

Programming	Python (Pandas, NumPy)
Databases	SQL
Analysis	Exploratory Data Analysis (EDA), Feature Selection, Feature Importance
Visualization	Matplotlib, Seaborn, Power BI
Tools	Jupyter Notebook, Flask, Git, VSCode, Microsoft Excel
Other	Business Process Analysis, Workflow Diagramming, QA Testing, Technical Documentation
Languages	Indonesian (Native), English (Conversational)

PROJECT EXPERIENCE

Diabetes Risk Prediction Model - Thesis / Final Project November 2025 - February 2026

- Built a machine learning model to predict early-stage diabetes risk using 48K+ health records (CDC dataset)
- Handled class imbalance using SMOTE and evaluated models (Logistic Regression, Random Forest, XGBoost)
- Achieved 75% recall and 83% ROC-AUC, optimizing model for health screening purposes
- Performed feature selection and identified key risk factors (BMI, Age, General Health)
- Deployed model into a Flask-based web app for real-time prediction

Amazon India Sales Dashboard May 2026

- Analyzed 128K+ Amazon India sales transactions using Python (Pandas, Matplotlib, Seaborn) for EDA and Power BI for interactive dashboard
 - Performed data cleaning including null handling, column selection, and datetime conversion
 - Identified key insights: Set as top revenue category, April as peak month, and Maharashtra as leading state by orders
-

PROFESSIONAL EXPERIENCE

Web Developer (Freelance) August 2024

Client Project

- Developed a responsive company profile website by translating client requirements into functional web solutions with user-centric design

Quality Assurance Intern / Software Tester Intern Mar 2025 – May 2025

PT Tiga Serangkai Pustaka Mandiri | Surakarta

- Analyzed business processes and system workflows to identify inefficiencies and improvement opportunities
 - Created workflow diagrams, user stories, and documentation to support both technical and non-technical stakeholders
 - Developed and executed test scenarios to validate system functionality and ensure data accuracy
 - Collaborated with cross-functional teams to align system outputs with business requirements
-

EDUCATION

Bachelor of Computer Science

Muhammadiyah University of Surakarta

Graduated 2026

- GPA : 3.51 / 4.00
